

DHRUVENDRA PATEL

Junior Web Developer | React.js | Next.js | Node.js
Noida, Uttar Pradesh | 9328822331 | dhruvpatel.dev@gmail.com
GitHub: github.com/null-quantum | Portfolio: portfolio-quantnull.vercel.app

PROFESSIONAL SUMMARY

MCA graduate with a BCA background and 6 months of paid software development internship experience. Hands-on experience building and deploying full-stack web applications with React.js, Next.js, TypeScript, Node.js, REST APIs, PostgreSQL, Prisma, and modern web tooling. Built and deployed AI-assisted applications including a nutrition and fitness platform and a personal finance application. Seeking a Junior Web Developer role to apply practical development skills and continue growing in a professional engineering environment.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, Next.js API Routes, REST APIs

Database: PostgreSQL, Prisma ORM, Supabase, Neon

Auth & State: JWT Authentication, Zustand

APIs & Libraries: Google Gemini API, Chart.js

Tools & Deployment: Git, GitHub, Vercel, PWA

EXPERIENCE

Rego Digital Solution — Trainee Developer

Dec 2022 – Jun 2023

Paid Internship

- Developed and integrated REST APIs for assigned web application features, focusing on efficient data exchange between frontend and backend.
- Worked with JavaScript, web frameworks, and API integration while completing daily development tasks based on given requirements.
- Implemented and tested application features, including API request/response handling, data validation, and basic error handling.
- Debugged development issues and tested API responses to ensure features worked correctly before completion.

PROJECTS

NutriFit — AI-Powered Nutrition & Fitness Platform

React.js, TypeScript, Node.js, Express.js, PostgreSQL, Tailwind CSS, Google Gemini API

GitHub: github.com/null-quantum/nutrifit | Live: nutrifit-pi-beige.vercel.app

- Built and deployed a full-stack platform for personalized health and fitness tracking.
- Implemented nutrition planning, BMI analysis, calorie tracking, fitness planning, and progress monitoring.
- Integrated Google Gemini for AI-powered recommendations and conversational nutrition assistance.
- Developed responsive interfaces and connected frontend features with backend APIs and database functionality.

MoneyFlow — AI-Powered Personal Finance Platform

Next.js, TypeScript, PostgreSQL, Prisma, Neon, Google Gemini API, JWT, Zustand, Tailwind CSS, PWA

GitHub: github.com/null-quantum/moneyflow | Live: moneyflow-lemon.vercel.app

- Built and deployed a full-stack personal finance application for expense tracking and financial analysis.
- Implemented authentication and user-specific expense ownership with protected API functionality.
- Developed expense management, transaction history, category-based analytics, dashboards, and spending insights.
- Integrated Google Gemini API for AI-assisted expense parsing and categorization; deployed the application on Vercel.

EDUCATION

Master of Computer Applications (MCA) — Sandip University, Nashik

2024 – 2026

Completed July 2026 | Average: 7.51 / 10

Bachelor of Computer Applications (BCA) — PSIT College of Higher Education, Kanpur

2019 – 2022

CGPA: 6.20 / 10
